

"Learning Opportunity, January 9, 2016"

"Necessary camping equipment when camping with your horses or mules, in the back country!"

Sponsored by K&S Saddlery and the Backcountry Horsemen of Washington

Ed and Sue Haefliger will be showing and explaining what camping equipment they carry on their mules, on pack trips, for camping in the back country.

Over the last several years, our camping equipment list as been pared down to the bare necessities. This process has been greatly assisted by the availability

to better and lighter back packing and expedition types of gear. We will be sharing our learned information with you, in hopes it assists you in getting yourselves out camping in the back country with your own horses and mules!

This class is in connection with the TrailMeister's instructional seminar "Camping with Horses beyond the Trailhead 102", section titled "Preparation".

Our class will start at 10:30 AM and run until 1:00 PM.

We look forward to visiting with you at K&S Saddlery,

228 162nd St. (S), Spanaway WA. 98387

Please call ahead to reserve your place in class, 253-537-1275, or Ed at 360-427-4297, mtcanary@msn.com.
