The camp has 27 sites with 30 amp electric service and water. Camp has plenty of open space for all sizes of rigs and primitive camping. **Go to <http://www.7iltrails.com/> to reserve your spot on a first come basis.** Land topography in this area is flat to gently rolling hills; trails go through wooded areas and clearings, creek crossings and ravines. Ponds and creeks provide good drinking water on trail. The trail surface is mostly natural grass and cow paths with some sandy areas particularly around creek beds. The ranch is barefoot friendly!
