

South Chagrin Reservation

The Chagrin River, designated as a State Scenic River in 1979, skirts the eastern edge of the reservation. A well-known focal point is Squaw Rock, a sandstone boulder carved by Henry Church in 1885. Beyond the river are acres of forest rich with spring wildflowers. Look About Lodge, listed on the National Register of Historic Places, was constructed in 1938 by the Cleveland Natural Science Club. The Lodge now serves as a Cleveland Metroparks outdoor education center offering year-round nature programming.

Cleveland Metroparks

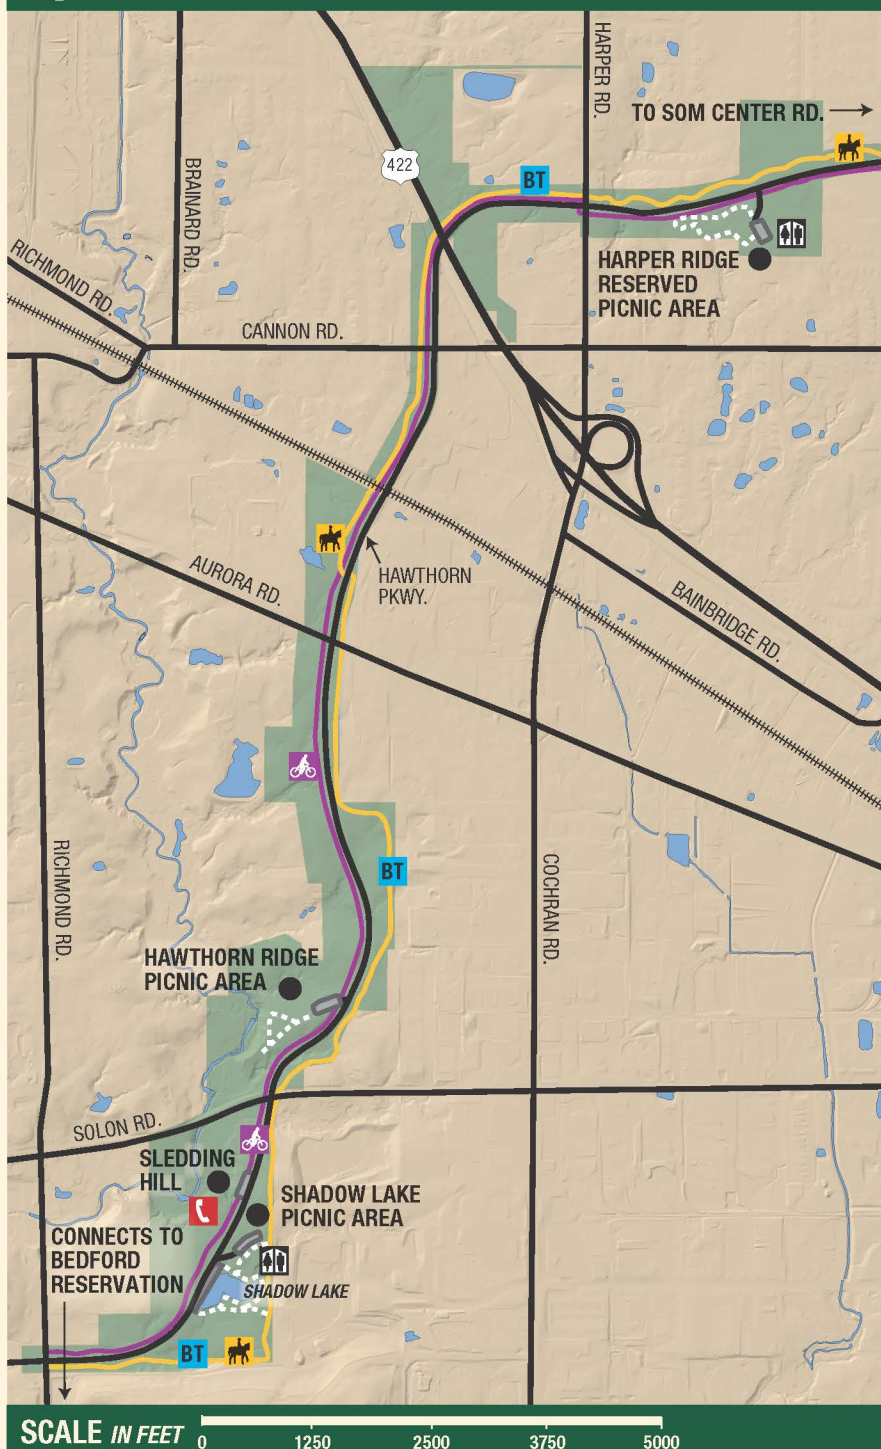

was established in 1917 to provide open space for the people of Greater Cleveland, as well as to conserve and preserve the natural valleys of the area. Today, Cleveland Metroparks consists of over 21,000 acres in 16 reservations, their connecting parkways and Cleveland Metroparks Zoo.
